

STATION 2 – MEASURING WEIGHT

Task 1 – One person from you group should pick out 3 weights and measure them on the digital scale, one at a time. Record your weights on your answer sheet.

Task 2 – One person from you group should put the same 3 weights on the analog scale, one at a time. Record your weights on your answer sheet.

Were they the same weight?

Task 3 – One person from you group should order the 3 weights on the table from lightest to heaviest.
