K-12 STEM ENQUIRER

Science, Discovery and Family Fun!

On January 13, the National Museum of the USAF hosted a STEM event that was attended by more than 2,400 people. The free event was open to the public and featured several hands-on science demos, the U.S. Air Force Band of Flight, All-Ohio State Fair Youth Choir as well as a few animals from the Columbus Zoo.

Opening remarks were given by Maj. Gen. T. Cooley, commander of the Air Force Research Laboratory. Ohio Governor Mike DeWine and his wife, Fran, followed with statements expressing support of education and STEM careers.
